

## Our History

Our café is located in the scenic Hall's Orchard of Isle La Motte. The property has been in our family since the late 1700's and different generations of Halls have been cultivating apples and pears ever since.

The café is attached to one of the historic stone houses built by the Scottish stone mason, James Ritchie, in 1828. The stone in the house was quarried on the island and the ancient coral reef fossils can be found in them.

We opened in the summer of 2008 and hope to serve you for generations to come!
